**DETAILED ACTION**

***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1 – 43, 45 – 68 and 79 – 94, drawn to a system for collecting, conveying and storing urine discharged from a male, classified in class 604, subclass 349.
- II. Claims 44, 69 – 78 and 95 – 96, drawn to a method of pretreating, manufacturing and using urine collection tubes, classified in class 425, subclass 72.1.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as process of making and product made.

The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the product as claimed can be made by a materially different process such as without pretreating a urine collection tube with rayon felt and liquid cleaner.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 3761

In the event that the applicant elects the claims of group 1, the following election of species requirement applies:

This application contains claims directed to the following patentably distinct species of the claimed invention:

Species 1 – Figure 1

Species 2 – Figures 2A and 2B

Species 3 – Figure 3A

Species 4 – Figure 3B

Species 5 – Figures 4A – 4C, 5A – 5B and 6

Species 6 – Figures 7A – 7B

Species 7 – Figures 8A – 8F

Species 8 – Figure 9

Species 9 – Figures 10A – 10D

Species 10 – Figures 11A – 11C

Species 11 – Figure 12

Species 12 – Figure 13

Species 13 – Figure 14

Species 14 – Figure 15

Species 15 – Figure 16

Species 16 – Figure 17

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 3761

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michele M. Kidwell whose telephone number is 703-305-2941. The examiner can normally be reached on Monday thru Friday, 7:00am - 3:30pm.
